Why FCFA?

1. WAEMU & DOLLARS

Togo, like all WAEMU countries, cannot open an account in dollars. The Bank only facilitates CFA Francs (XOF) accounts.

2. RISK OF EXCHANGE LOSS

Dollars sent to Togo's account are positioned against the rate of the day. A rate that fluctuates frequently.

This fluctuation directly impacts the actual amount received in Togo which would lead to an incurred loss.

To avoid this the committee decided to put the fees in CFA Francs.

Note: The Exchange rate of Euros to FCFA is static and would be a stable reference currency for your exchange
